We offer our hearts of appreciation for *Your* love and virtue as we are allowed to live in this very moment. Currently, a pandemic is rapidly spreading throughout the world. The novel Coronavirus Pandemic is causing much concern and raising anxieties amongst people and nations. Thus, we offer our hearts and prayers to *You* to end this pandemic as soon as possible.

Sadly, there are those who have lost their lives because of this virus, and we put our hands together to pray for their peace and happiness.

We also pray for those who are infected by the virus to quickly recover and heal completely, in order that they may continue to contribute to society and the world.

We pray for political, economical, and educational reform so that all the anxieties, distrust and blame we have been harboring will dissipate and we will be blessed with the return of social order. For those that are suffering in the midst of this pandemic, please allow their hope, their faith and livelihoods to be restored.

Thus, now more than ever, we commit to renewing our hearts of appreciation, having a heart of *Kami*, and praying for and guiding others.

May we all be awakened to *Your* truth that “A faith that helps others, helps ourselves.” Instead of fearing this Coronavirus, let us respect it with awe and modesty to help *You* in this global endeavor for ending this pandemic and bringing peace & joy to this world.

It is our sincere prayer that the people of the world, all *Your* children, will not only find peace of mind; but also will live happily, safely, and healthily.
